

4D-PSL(2,7) jet-wake bridge: discrete scale evolution on the Klein quartic

(a) 4D-PSL(2,7) jet-wake mass ladder

$$k = 45 \Rightarrow 10^{-18} \text{ m}$$

(b) 24 vertices of the PSL(2, 7)/ C_7 lattice

$$(\text{Klein quartic } x^3 y + y^3 z + z^3 x = 0)$$
